

MODULAR PLANTER BOX PRICE LIST

Modular Planter Boxes are made from weathering (AKA Corten) steel. The natural rustic surface of Straight curve weathering steel gives you an attractive looking finish whilst also protecting the steel within for assured longevity and strength. This ready-to-assemble kit comes complete with corner joiners, tek screws and Tek driver bit.

Planter box dimensions are 1m x 1m with a height of 560mm. By using the 600mm, 800mm or 1m extension kits the planter box size can be extended continuously in either direction to make whatever size is required.

Modular Planter Box Extender Kits are made from weathering (AKA Corten) steel.. The ready-to-assemble kit comes complete with straight joiners, braces, tek screws and Tek driver bit.

By using the extension kit you can extend the Straight curve Modular Planter Boxes in either direction in 600 or 800mm increments.
